

NATIONAL ZERO TILL HAPPY SEEDER

Features and Benefits:

- Used for Sowing of Wheat, Sorghum, Barley, Pulses & other similar crops in the residue of previous Crops. The Machine is equipped with straw managing chopper which enable the seeding in the straw itself. When this straw decay on the soil as mulch layer it increases the fertility of soil.
- Superior Quality Zero Tillage Openers steel gives long wear resistance life
- Narrow Seed / Fertilizer placement boot to ensure minimum soil disturbance in Zero Tillage Seeding
- Heavy Duty construction with Best Quality Raw material used
- All the Components and Parts are manufactured on latest technology like CNC machines, Mig Welding which ensures parts interchangeability, enhanced product life, Precise and reliable working
- Better surface finish as a results of cleaning, short blasting, under coat and then painting with PU top coat to all the components before assembling ensuring the users can have long corrosion free product life
- Tines fitted with U Clamps for easy adjustments along with strong grip
- Very easy to adjust Seed and Fertilizer Rate; thanks to simple Lever mechanism
- Higher Yields with the help Depth control for Better seed placement
- Gun metal bushing in load bearing Depth control wheels to give long wear free life
- Seed Saving with the help of Precise Seed Metering Mechanism also with unique spring mechanism for same precision in long coming years
- Better quality and Durable components are used like Chains, Splined Sprockets, Fluted Rollers, Spring Loaded Idler and Fasteners etc.

Specifications:	
Model:	NZTHS-10
Rows	10 Rows
Tractor Required	50-60 HP
Seed Metering	Fluted Roller
Fertilizer Metering	Fluted Roller
Type & Hitching	Tractor mounted with 3 Point Linkage
Frame	Strong and Robust
Row Space	10" Std. & Adjustable with 'U' Clamps
Drive	Ground Wheel driven along with PTO
Furrow Openers	Zero Tillage Blade Type Openers for sowing in un-prepared/Zero Tillage fields.

**The Specification and Information provided in present leaflet are supplied for information only and are not binding and can be changed for further development of product.
